Humanitarian Aid on the Border

www.nomoredeaths.org

No More Deaths is a Ministry of the
Unitarian Universalist Church of Tucson

No More Deaths asserts the right to provide humanitarian aid to migrants.

Founded in the fall of 2003, No More Deaths works to end death and suffering on the U.S./Mexico border through civil initiative: the conviction that people of conscience must work openly and in community to uphold fundamental human rights. We have hosted and trained thousands of volunteers to provide aid to migrants at our desert camps and border aid stations.

We believe it is essential to be able to provide humanitarian aid to people regardless of their citizenship or legal status. Our work is done with transparency and integrity. We hope to see the end of the deadly economic and border policies soon—but we will continue to provide aid until there are *no more deaths*.

Come Volunteer with No More Deaths!

Spend a week (or more) providing humanitarian aid with No More Deaths - volunteers are trained and assigned to our desert camps and border aid stations during the deadly summer months. And we can always use helpers in Tucson, Phoenix and Flagstaff. To find out more, visit www.nomoredeaths.org or write to volunteer@nomoredeaths.org

Current Projects:

Desert Aid: Volunteers are trained to lead daily patrols from camps in the remote southern Arizona desert looking for people who need aid. We are always prepared to give out food, water and basic medical care. NMD has assisted with many rescues, ensuring that migrants received adequate medical care for their condition.

Border Aid Stations: We have partnerships to run three border aid stations where volunteers meet people who have been returned to Mexico at the border. In Nogales alone, over 250,000 people have come through our Mariposa aid station, receiving warm food, water, clothes, medical care and information as needed.

Abuse Compilation: Volunteers are trained to document any abuse suffered by migrants while in the custody of Border Patrol. A final report will be released during the summer of 2008.

The desert aid camps provide volunteers with a home base for daily patrols.
