

# **Use of Pharmacotherapies by Substance Abuse Treatment Facilities**

**Cathie E. Alderks, PhD**

**Substance Abuse and Mental Health Services Administration**

**Department of Health and Human Services**

**November 2007**

# The National Survey of Substance Abuse Treatment Services

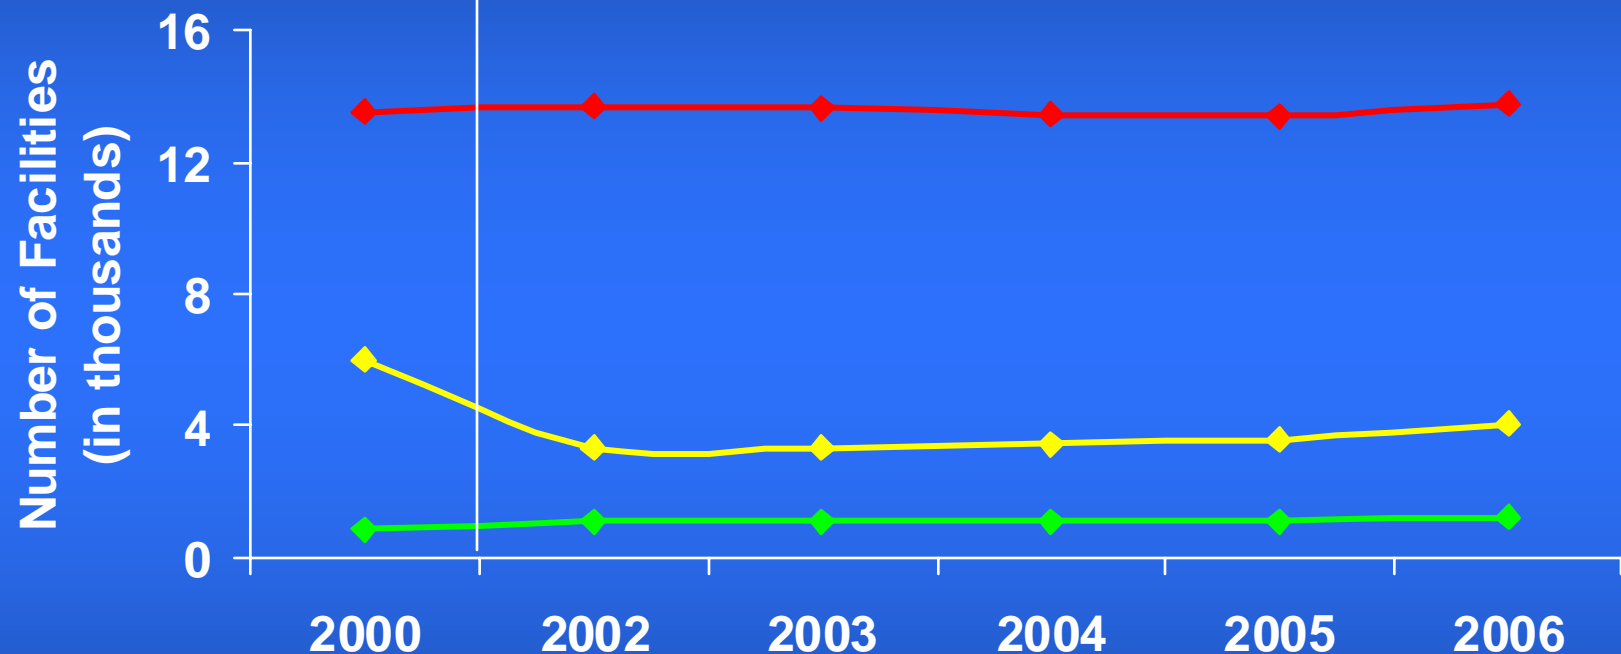

---

- Annual survey of all organized substance abuse treatment facilities known to SAMHSA
- Collects information on
  - location, characteristics, and services offered
  - one-day census of clients in treatment
- Mixed mode: mail, web, telephone

# Number of Substance Abuse Treatment Facilities Responding to the Survey

Pharmacotherapies/  
Prescription Medication

Specific Drugs Mentioned

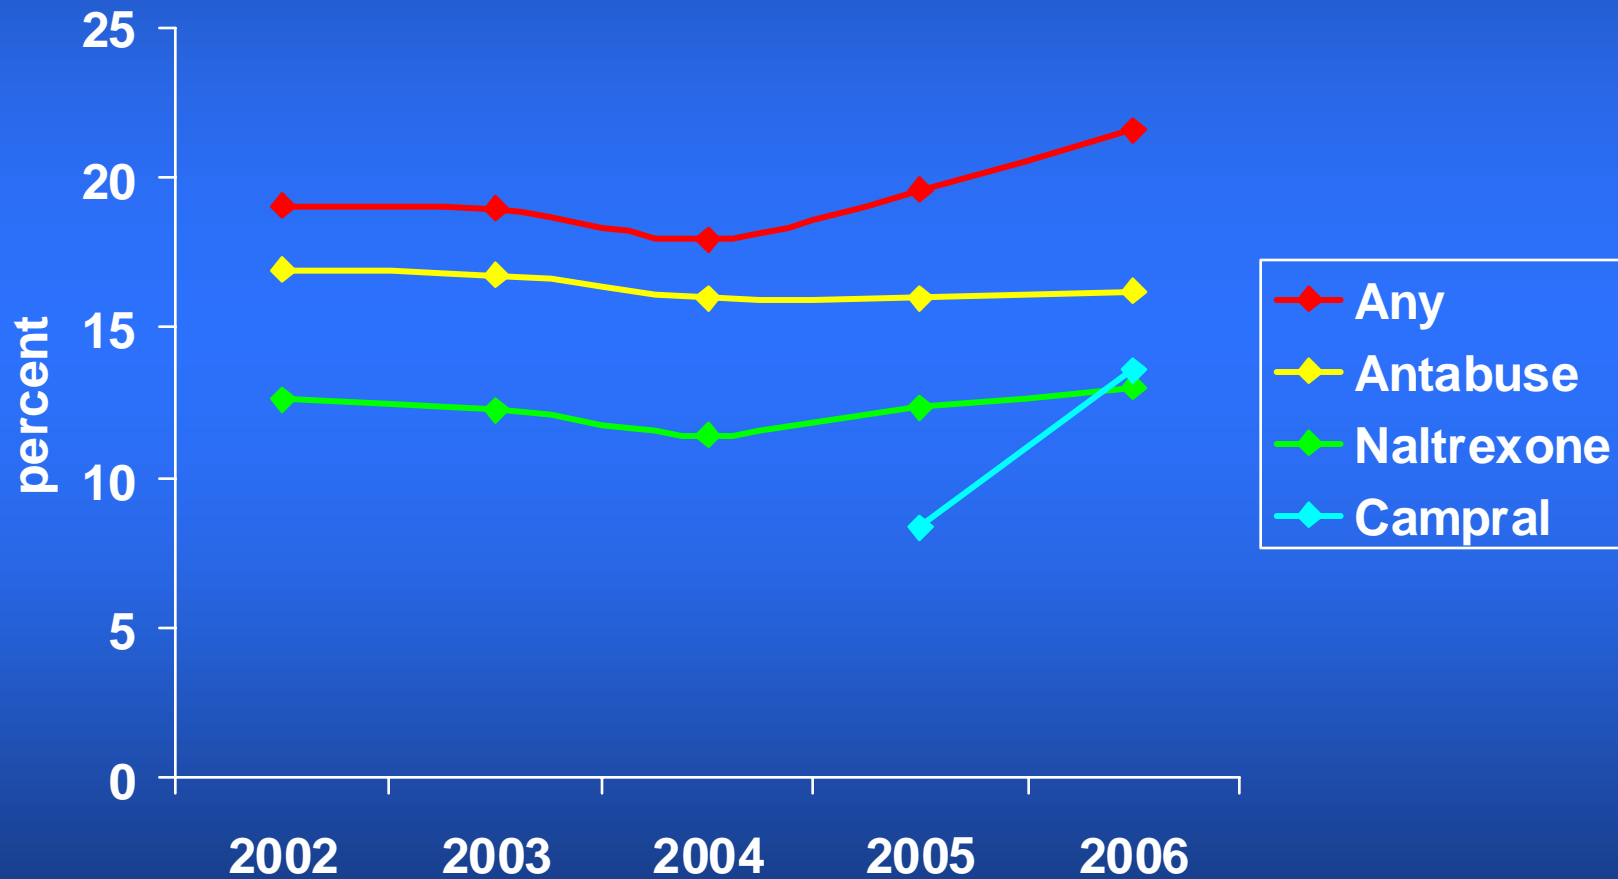

- ◆ Number of Substance Abuse Treatment Facilities
- ◆ Number Offering Any Queried Pharmacotherapy
- ◆ Number Dispensing Methadone/LAAM/Buprenorphine

# Facilities Offering Antabuse, Naltrexone, or Campral

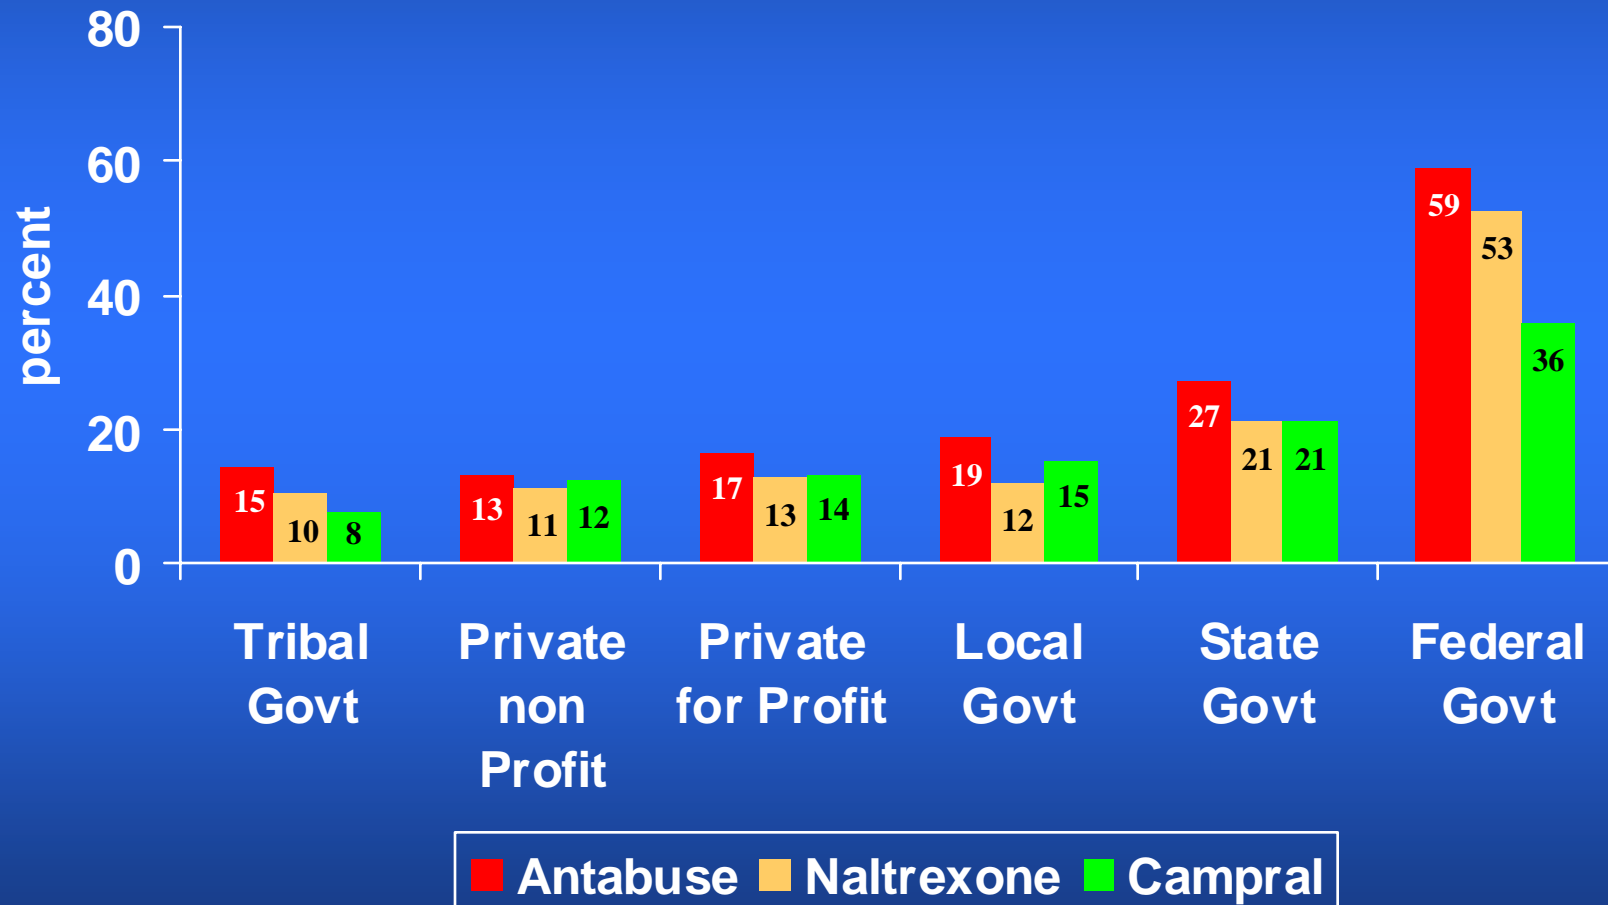

# Specific Pharmacotherapies

- **Antabuse:** (disulfiram) The first pharmacotherapy approved for the treatment of alcohol abuse and alcohol dependence by the U.S. Food and Drug Administration. Causes unpleasant side effects if alcohol is consumed.
- **Naltrexone:** (naltrexone hydrochloride) An opioid receptor antagonist used primarily in the management of alcohol dependence and opioid dependence. Reduces the craving and blocks the “high” for alcohol and blocks the “high” of opioids.
- **Campral®:** (acamprosate calcium) FDA-approved for the maintenance of abstinence from alcohol in patients with alcohol dependence who are abstinent at treatment initiation. Reduces the physical distress and emotional discomfort (withdrawal symptoms) people usually experience when they quit drinking.

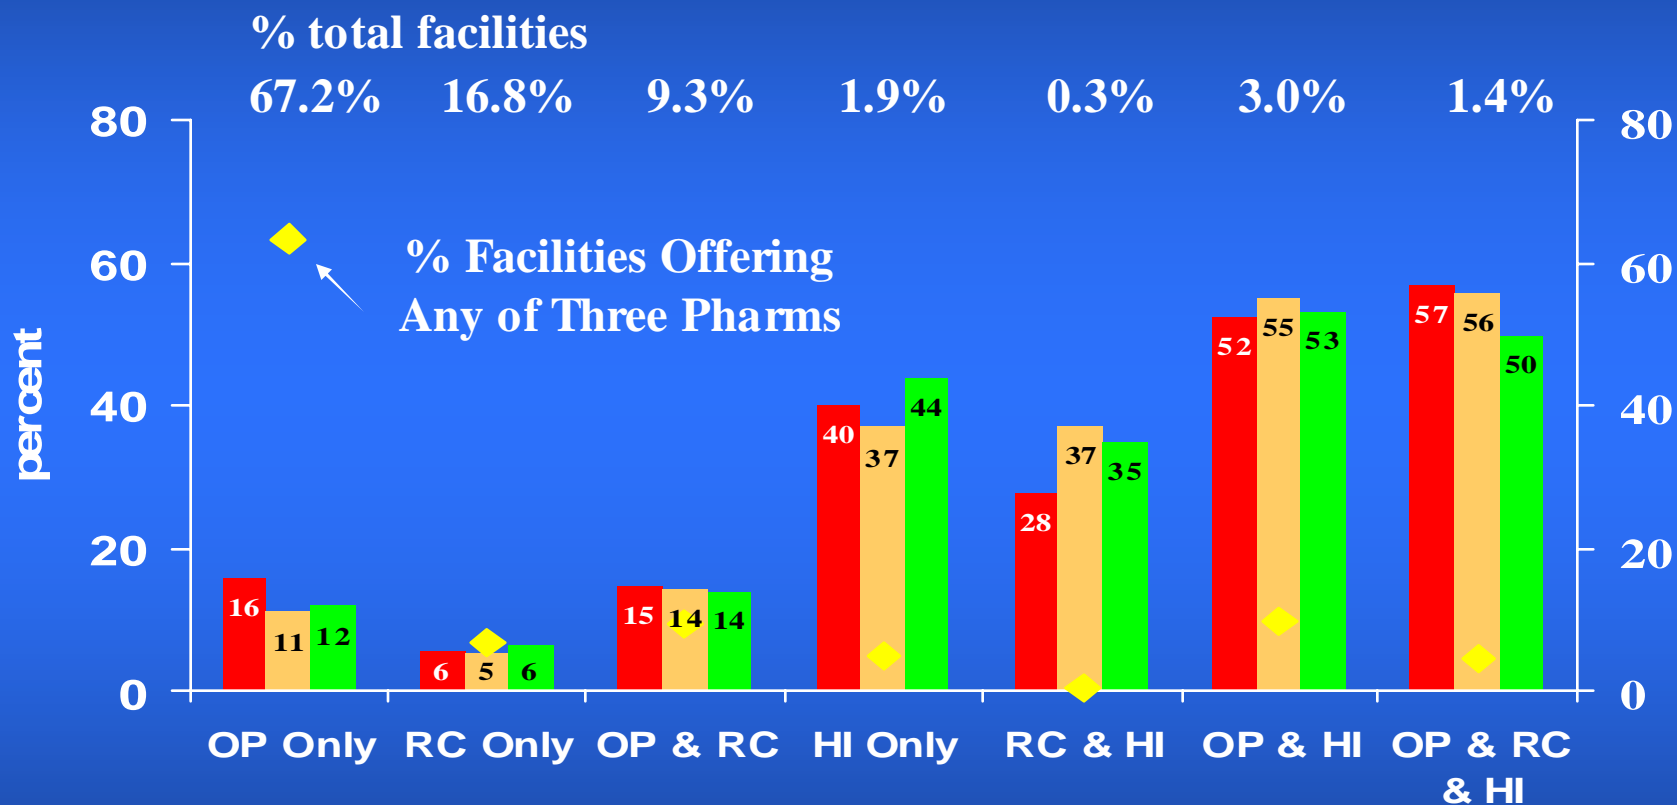

# Percent of Facilities Offering Antabuse, Naltrexone, or Campral

# Percent of Facilities Offering Antabuse, Naltrexone, or Campral by Ownership of Facility

# Antabuse, Naltrexone, or Campral by Type of Treatment Offered by the Facility: 2006

OP = Outpatient  
 HI = Hospital Inpatient  
 RC = Residential

**% of facilities in type that offer :**  
■ **Antabuse**    ■ **Naltrexone**    ■ **Campral**

# Facilities Offering Methadone, LAAM, or Buprenorphine

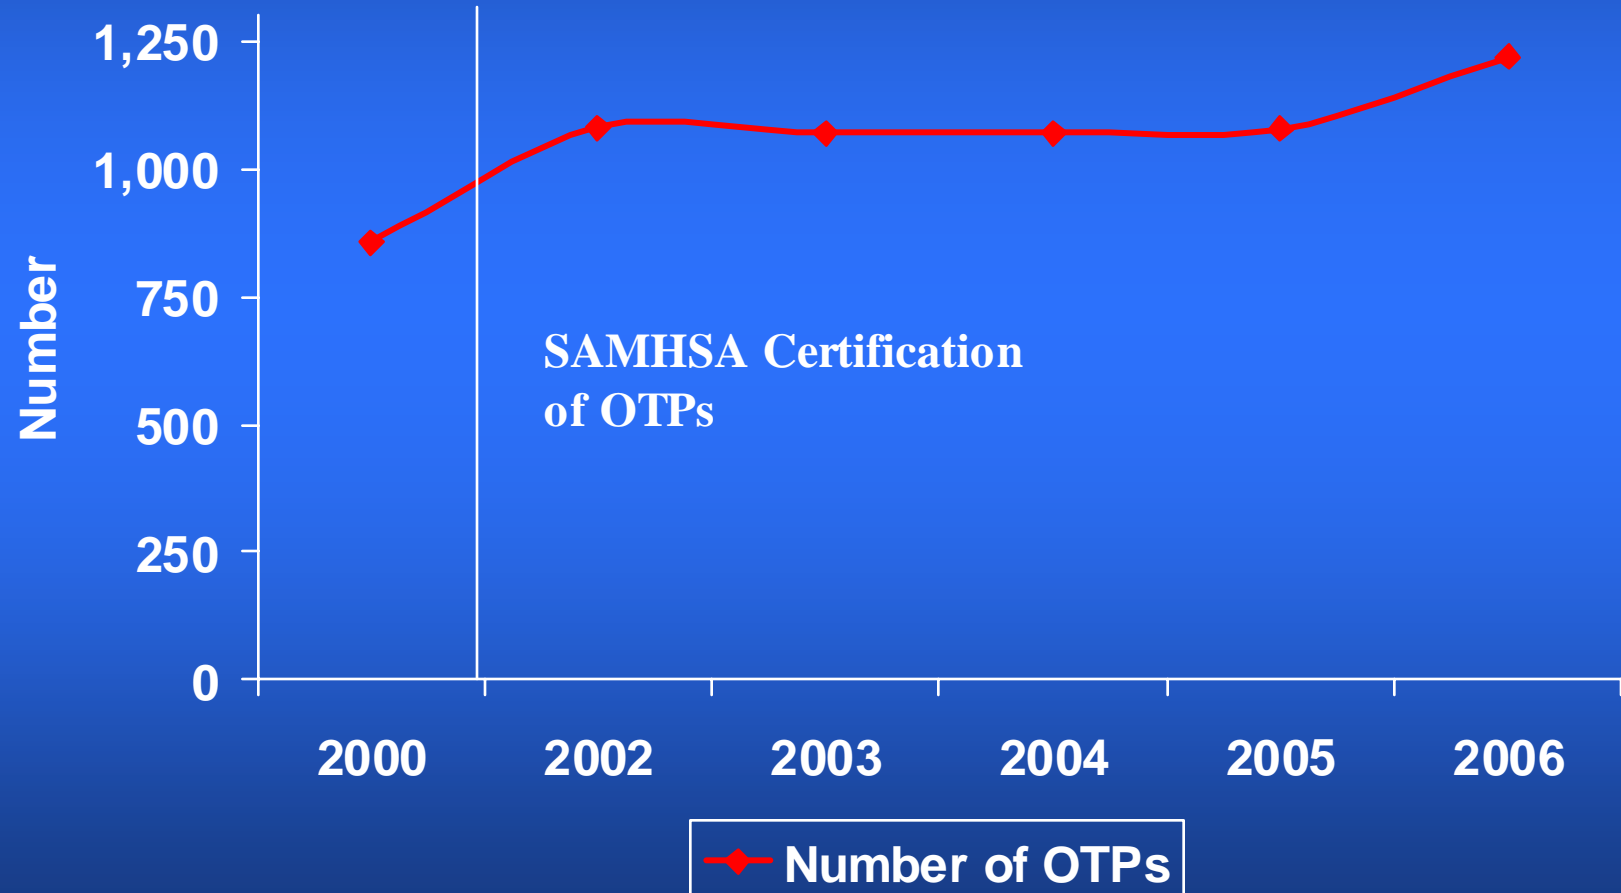

# Specific Pharmacotherapies

- **LAAM:** (Levo-Alpha Acetyl Methadol ) Blocks the effects of other opiates and prevents withdrawal, but does not produce a subjective high. Production discontinued in 2003 (severe cardiac-related adverse events).
- **Methadone:** A synthetic opioid used medically as an analgesic and in the treatment of narcotic addiction. Reduces withdrawal symptoms in people addicted narcotics without causing the "high" associated with the drug addiction.
- **Buprenorphine:** Subutex (buprenorphine hydrochloride) and Suboxone (buprenorphine hydrochloride and naloxone hydrochloride). Subutex and Suboxone treat opiate addiction/dependence by preventing symptoms of withdrawal from heroin and other opiates. Approved by FDA in October 2002

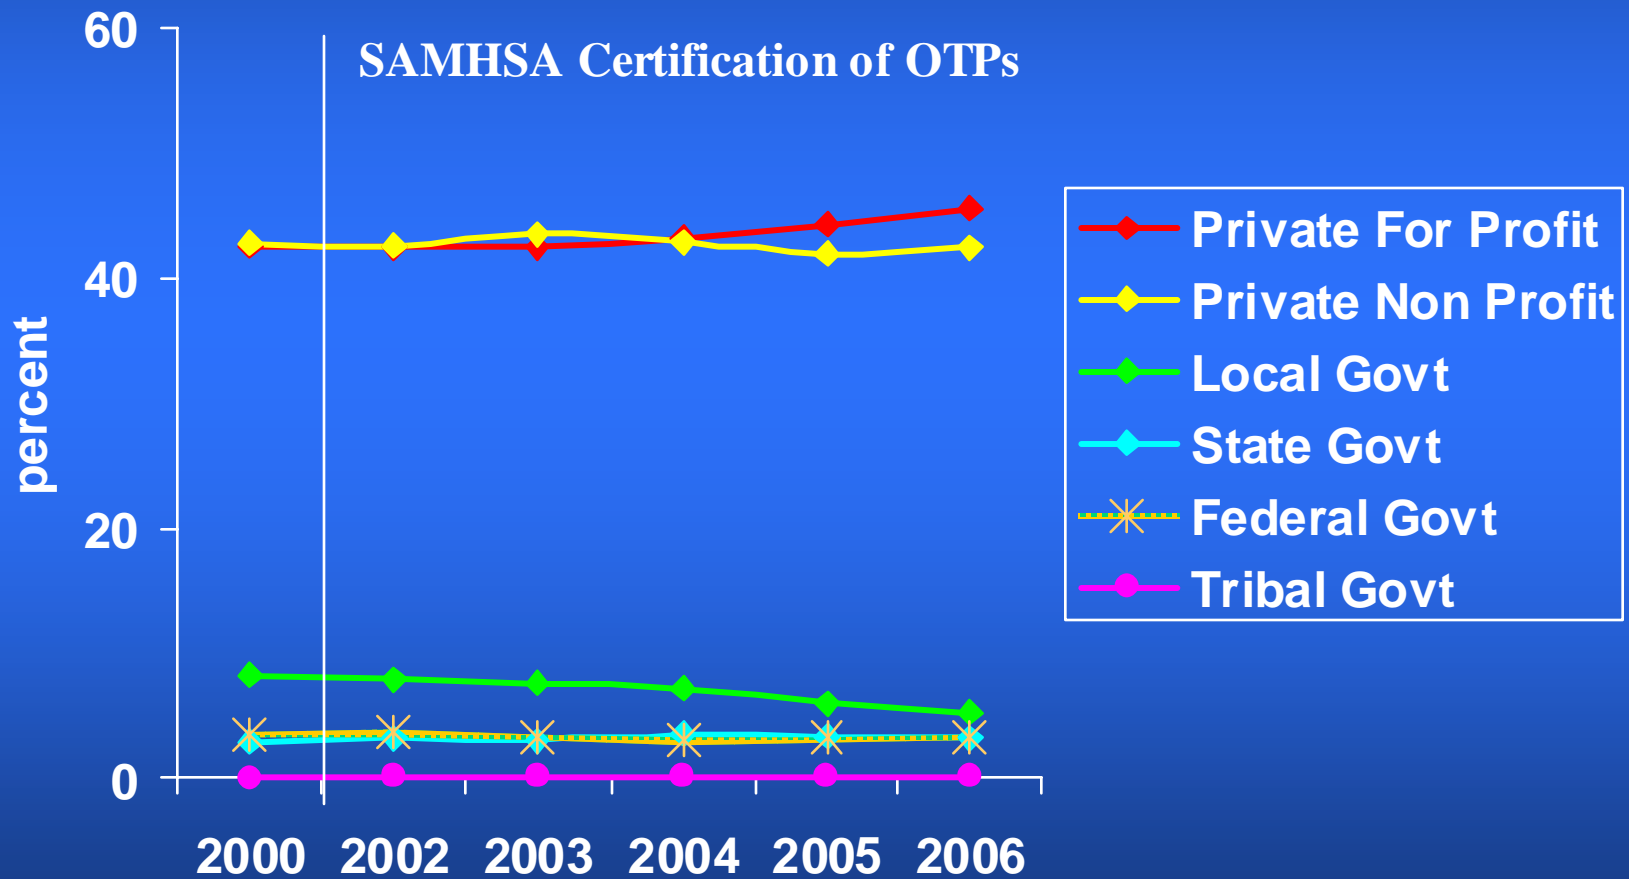

# Opioid Treatment Program

An Opioid Treatment Program (OTP) is a substance abuse treatment program that is certified by SAMHSA's Center for Substance Abuse Treatment (CSAT) to use opioid drugs such as methadone or buprenorphine in the treatment of opiate (narcotic) addiction.

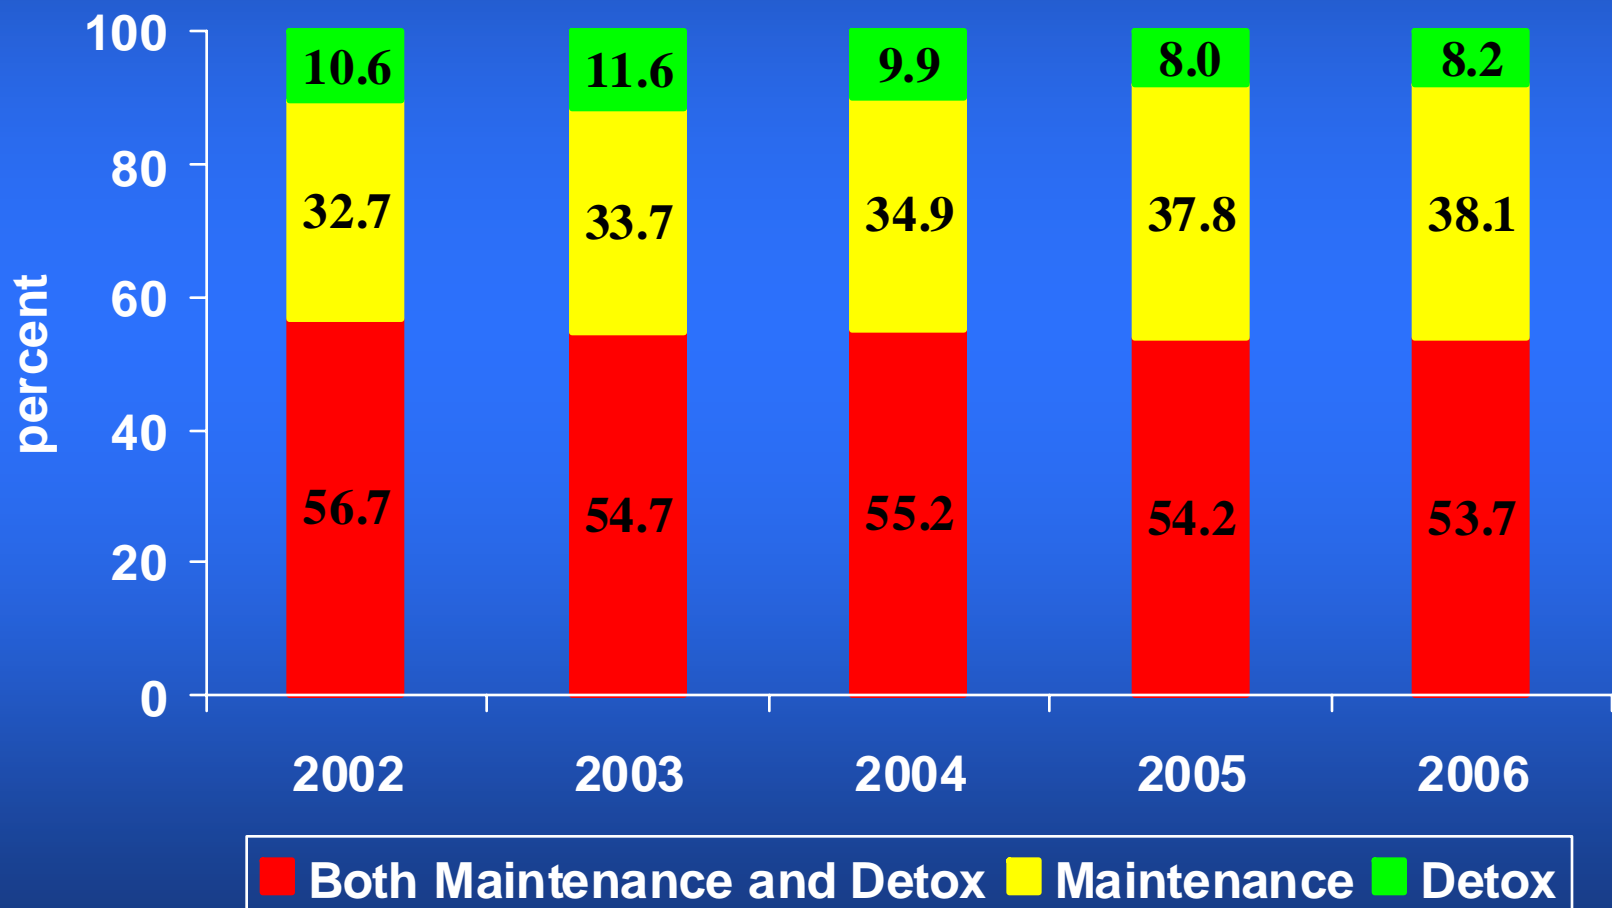

# Number of Opioid Treatment Programs (OTPs)

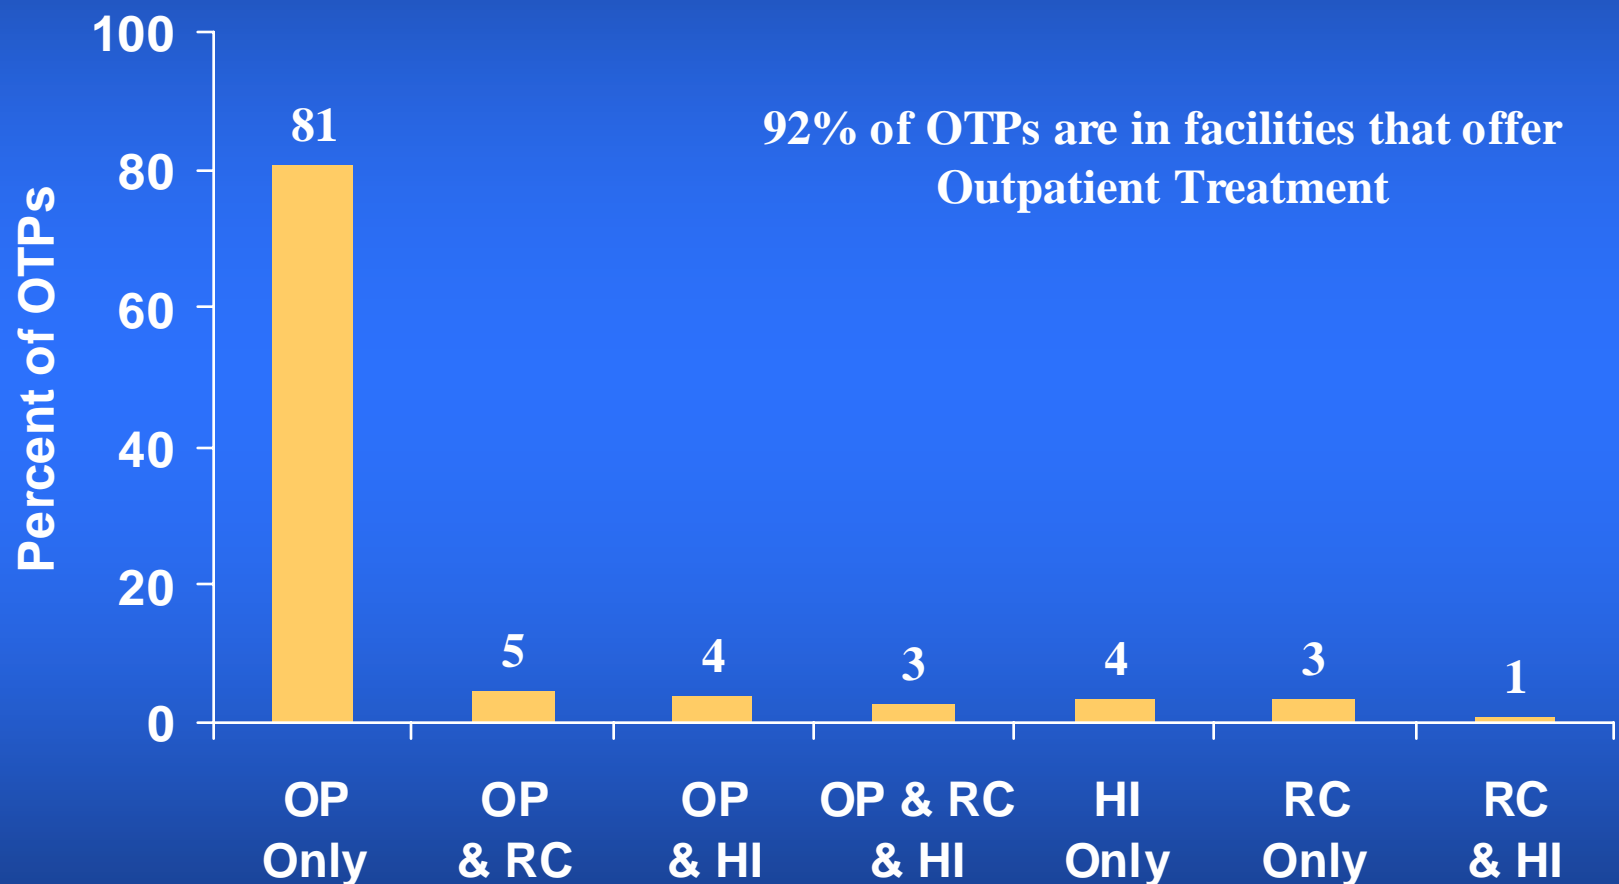

# Opioid Treatment Programs by Ownership

# Opioid Treatment Programs by Type of Program (Maintenance, Detox, or Both)

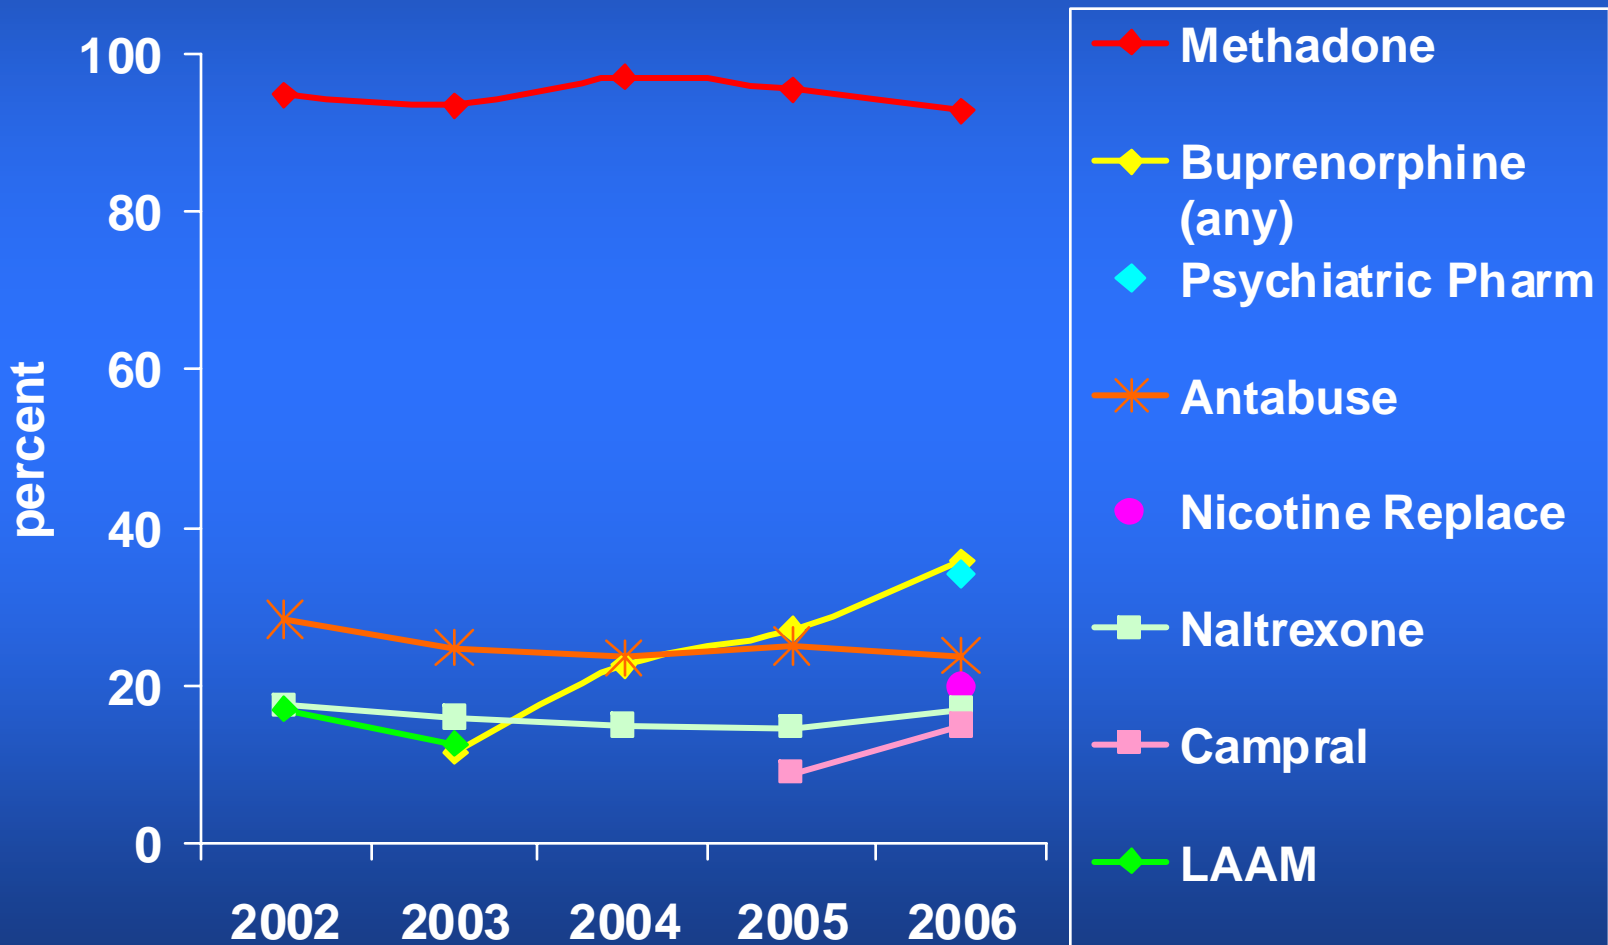

# Types of Treatment Offered by Facilities that Offer OTPs : 2006

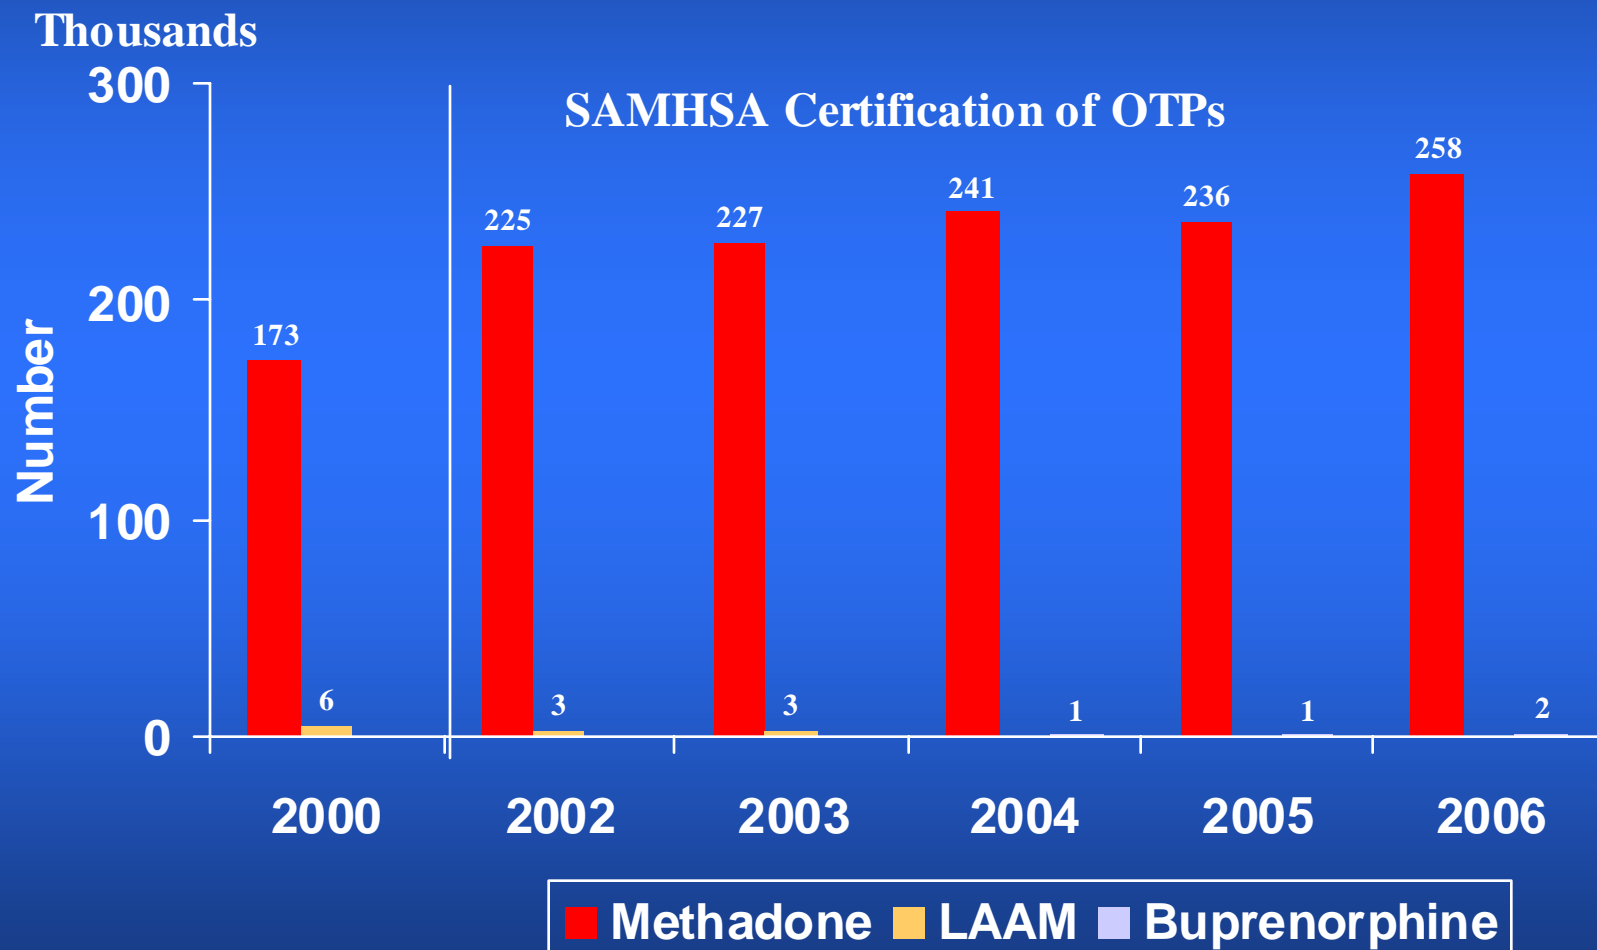

OP = Outpatient    HI = Hospital Inpatient    RC = Residential 15

# Pharmacotherapies Offered by OTPs

# Total Number of Clients in Treatment Who are Receiving Opioid Replacement Therapy at Opioid Treatment Programs (OTPs) on Point Prevalence Date

# How can you find facilities that have Opioid Treatment Programs?

## KEY TO FACILITY CODES\*

### Primary Focus of Provider

SA	Substance abuse treatment services
MH	Mental health services
MH-SA	Mix of mental health and substance abuse services
GH	General health services

### Services Provided

TX	Substance abuse treatment
DT	Detoxification
MM	Methadone maintenance
DM	Methadone detoxification
BU	Buprenorphine used in treatment
HH	Halfway house

### Type of Care

HI	Hospital inpatient
OP	Outpatient
PH	Partial hospitalization/day treatment
RS	Residential short-term treatment (30 days or less)
RL	Residential long-term treatment (more than 30 days)

### Special Programs/Groups Offered

AD	Adolescents
CO	Persons with co-occurring mental and substance abuse disorders
HV	Persons with HIV/AIDS
GL	Gays and Lesbians
SE	Seniors/older adults
PW	Pregnant/postpartum women
WN	Women
MN	Men
BC	Residential beds for client's children
DU	DUI/DWI offenders
CJ	Criminal justice clients

### Forms of Payment Accepted

SF	Self payment
MD	Medicaid
MC	Medicare
SI	State financed insurance (other than Medicaid)
PI	Private health insurance
MI	Military insurance (e.g., VA, TRICARE)
AR	Access to Recovery voucher
