Fundamental Theorem of Medical Informatics (Charles Friedman)

- q Informatics is as much about people as it is technology
- q In practice, people and technology are in an interactive partnership

Progress toward a National Health Information Network

- q President's Mandate - 2004
 - § By 2014 - Widespread Electronic Health Records (EHRs)
- q Office of the National Coordinator for Health Information Technology (ONC)
- q American Health Information Community (AHIC)
 - § Healthcare IT Standards Panel (HITSP)
 - § Certification Commission for Healthcare Information Technology (CCHIT)
 - § NHIN Prototypes

Copyright 2007, ,

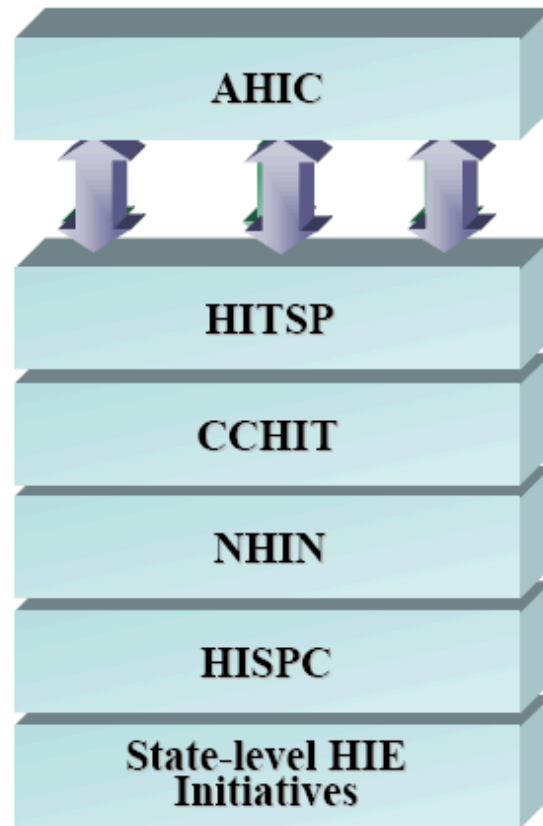

SAFER • HEALTHIER • PEOPLE™

AHIC – a Public and Private Sector Collaborative

AHIC is the public-private collaborative that sets priorities and oversees and/or endorses HIT standards, certification, the NHIN, and policies on a national level.

- **AHIC** - American Health Information Community
- **HITSP** – Health IT Standards Panel
- **CCHIT** – Certification Commission for Health IT
- **NHIN** - Nationwide Health Information Network Prototypes
- **HISPC** – Health Information Security and Privacy Collaboration
- **State-level HIE Initiatives** – State-level Health Information Exchange Initiatives

National Center for Public Health Informatics

MISSION:

“Protecting public’s health, promoting health equity, and transforming the health system through advancement of the science of biomedical informatics and application of its principles to public health practice.”

VISION:

“Leadership and vision to help create an interoperable public health system.”

Key Programs: BIOSENSE, NEDSS, PHIN, OMS, CRA

SAFER • HEALTHIER • PEOPLE™

National Center for Public Health Informatics: Agenda

- q Public Health Integration into the NHIN
 - § Collaboration with Office of the Nation Coordinator
 - § American Health Information Community Support
 - Participation in Federal Health Information Exchange
 - Public Health Clinical Care Coordination Subcommittee
 - Public health use case development for AHIC
 - Standards development
 - § HIE--Public Health integration RFA

Copyright 2007, ,

SAFER • HEALTHIER • PEOPLE™

Biosense: Integrating Public Health into the NHIN to Monitor the Nation's Health

q Past

§ Syndromic surveillance of multiple independent “noisy” data sources allows early identification of events

- Tracking of counts of interesting but unmerged data streams
- Chief complaints, ER diagnoses, lab orders, OTC purchases, absenteeism

q Future

§ Case-based surveillance throughout the healthcare system

§ Staged levels of interest

- Potentially interesting cases (Chief complaints, ER diagnoses, X ray finding, et.)
- Suspected cases of interest (initial diagnostic criteria met)
- Confirmed cases of interest

§ Integration with other public health surveillance tools

CDC Biosense Application

Biosense as the Link to the NHIN

Biosense Public Health--HIE Link

- q Major investment

 - § 5 year 8 -10 million dollar a year program

- q Funds health information exchanges required to have public health partners in development teams

 - § Uses exchange infrastructure for monitoring task

- q Funds

 - § Transmission of data from Bioterrorism use case

 - § Two-data exchange

 - § Transmission to all levels of public health

 - § Assessment, tracking and characterization of outbreaks

Copyright 2007, ,

SAFER • HEALTHIER • PEOPLE™

Other NCPHI Initiatives

- q Workforce Training in Informatics
 - § 1000 public health informaticians by 2012
- q Communities of Practice and Open Source
 - § Changing how the CDC develops software with the public health community
- q Centers of Excellence in Public Health Informatics
 - § Biosense supported program and others
 - § Collaborative research in public health informatics

Copyright 2007, ,

SAFER • HEALTHIER • PEOPLE™

NCPHI's Commitment to Innovation

- q PHIN Messaging
- q Vocabulary Services
- q Public Health Ontology
- q Decision Support Methodologies for Public Health
- q Grid Architectures for Public Health

Copyright 2007, ,

Goal State

Collaborative, Efficient, Agile

Summary and Conclusions

If you want to travel fast, travel alone

If you want to travel far, travel together

African Proverb

Copyright 2007, ,

q **Public Health Informatics**

- § Rapidly evolving field
- § Highly impacts on public health practice
- § NHIN offers new types of opportunities for public health
- § New strategies for surveillance and intervention
- § Systems that interlock and work together
