

# Summary of Evidence

## II. SUMMARY OF EVIDENCE

Using the *Typology for Classifying Interventions/Strategies by Level of Scientific Evidence Category* document, check the overall level of evidence for this strategy.

- **Proven:** Established through peer review via systematic or narrative review
- **Likely Effective:** Established through peer review
- **Promising:** Established through written program evaluation without formal peer review
- **Emerging:** Established through on-going work, practice-based summaries, or evaluation works in progress
- **Not Recommended:** Varies

## III. STATE-LEVEL IMPLEMENTATION SCORE

### 1. How applicable is the strategy to our population in Colorado?

High (1 point) – The literature shows a similar population as we have here in Colorado

Low (0 points) – There is a significant difference between the populations in the literature and the Colorado population

### 2. Based on this research, does adopting this strategy require specialized expertise?

High (1 point) – Strategy does not require specialized expertise

Low (0 points) – Strategy requires specialized expertise

### 3. Based on this research, does adopting this strategy require financial resources?

High (1 point) – Strategy is supported by current financial resources

Low (0 points) – Strategy requires additional funding or reallocation of funding

### 4. Based on this research, does adopting this strategy require political will?

High (1 point) – Strategy has minimal barriers related to political will

Low (0 points) – Strategy has barriers related to political will

### 5. Is the Prevention Services Division currently working on any intervention activities related to this strategy?

Yes (1 point)

No (0 points)

### Overall Score

Circle and count points for overall score.

**High (4-5 points)**

**Medium (2-3 points)**

**Low (0-1 points)**
