

[www.train.org](http://www.train.org)

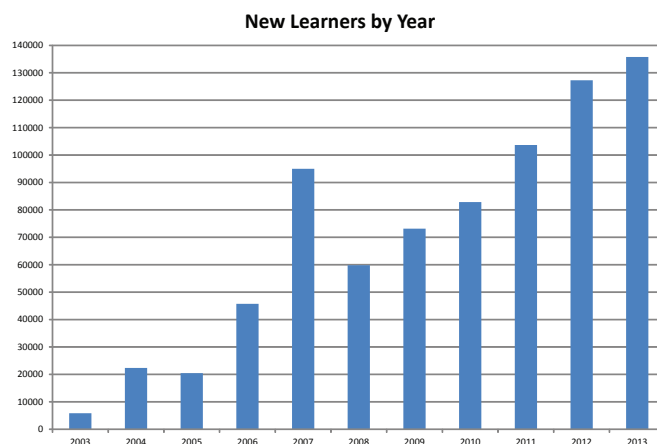

Unlike many LMSs,  
**TRAIN allows unlimited learners.**

Therefore, the **more learners,**  
the **greater the return on investment.**

Users	Per User Cost
<b>1,000</b>	<b>\$27.50</b>
<b>10,000</b>	<b>\$2.75</b>
<b>25,000</b>	<b>\$1.10</b>
<b>50,000</b>	<b>\$0.55</b>
<b>75,000</b>	<b>\$0.37</b>
<b>100,000</b>	<b>\$0.28</b>

This chart outlines  
per learner cost  
comparisons,  
**if** TRAIN did  
charge per learner.

TRAIN is one of the most widely used  
Learning Management Systems (LMS).

**Over 800,000 learners**

### Returns on Investment

The **Kansas** Department of Health and Environment, partnered with the Department of Preventive Medicine and Public Health, University of Kansas School of Medicine-Wichita, conducted a study determining the cost savings for a public health learner taking online training through TRAIN as opposed to a classroom course.

Between 2005 and 2012, Kansas showed **\$14 million** in savings.

The **Kentucky** Department for Public Health documented savings in excess of **\$21.75 million** between 2007 and 2009.

Developed by the Public Health Foundation, TRAIN operates through a collaborative network of state and federal agencies, local and national organizations, and educational institutions.

TRAIN is one of the most widely used LMSs.

**TRAIN Builds Competence**

Over 2.6 million courses have been completed through TRAIN. Over 43% of courses completed included Core Competencies for Public Health Professionals, a figure that also reflects 33% of all courses initially registered for.

**A learner registers for a course every 30 sec.**

For a total of over 3.5 million registrations

**...and completes a course every 1½ minutes**

For a total of over 2.6 million completions

**...43% of which include competencies.**
