# Health Knowledge, Insurance, and Other Factors' Influence on Breast and Prostate Cancer Screening Behavior 

Presentation at the American Public Health Association Conference 2014

New Orleans, Louisiana

## Supplemental Tables

Table B.1. Characteristics of Female Workshop Participants Ages 40 to 64 and Follow-Up Survey Respondents (women ages 40 to 64 without a mammogram in the past year)

| Characteristic | Workshop Participants Ages 40 to 64 |  | Follow-Up Survey Respondents |  | Percentage Point Difference |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | N | \% | N | \% |  |
| Total | 618 | 100.0 | 100 | 100.0 |  |
| Race |  |  |  |  |  |
| Asian | 94 | 15.2 | 16 | 16.0 | 0.8 |
| Black/African American | 100 | 16.2 | 18 | 18.0 | 1.8 |
| White | 233 | 37.7 | 30 | 30.0 | -7.7 |
| Other | 33 | 5.3 | 4 | 4.0 | -1.3 |
| Unknown | 166 | 26.9 | 32 | 32.0 | 5.1 |
| Ethnicity |  |  |  |  |  |
| Hispanic/Latina | 326 | 52.8 | 55 | 55.0 | 2.2 |
| Not Hispanic/Latina | 279 | 45.1 | 44 | 44.0 | -1.1 |
| Unknown | 13 | 2.1 | 1 | 1.0 | -1.1 |
| Language of Demographic Form |  |  |  |  |  |
| English | 206 | 33.3 | 29 | 29.0 | -4.3 |
| Portuguese | 99 | 16.0 | 8 | 8.0 | -8.0 |
| Spanish | 222 | 35.9 | 47 | 47.0 | 11.1 |
| Vietnamese | 91 | 14.7 | 16 | 16.0 | 1.3 |
| Country of Birth |  |  |  |  |  |
| Born in United States | 125 | 20.2 | 21 | 21.0 | 0.8 |
| Born in U.S. territories | 95 | 15.4 | 14 | 14.0 | -1.4 |
| Born in Other Country | 376 | 60.8 | 62 | 62.0 | 1.2 |
| 5 years or Fewer in U.S. | 15 | 4.0 | 2 | 3.2 | -0.8 |
| More than 5 Years in U.S. | 64 | 17.0 | 17 | 27.4 | 10.4 |
| Unknown Length of Time in U.S. | 297 | 79.0 | 43 | 69.4 | -9.3 |
| Unknown | 22 | 3.6 | 3 | 3.0 | -0.6 |
| Health Insurance |  |  |  |  |  |
| Yes | 579 | 93.7 | 93 | 93.0 | -0.7 |
| Private | 168 | 27.2 | 25 | 25.0 | -2.2 |
| Medicare | 37 | 6.0 | 6 | 6.0 | 0.0 |

| Free Care or Safety Net | 63 | 10.2 | 10 | 10.0 | -0.2 |
| Unknown Insurance Type | 19 | 3.1 | 3 | 3.0 | -0.1 |
| No | 29 | 4.7 | 6 | 6.0 | 1.3 |
| Unknown | 10 | 1.6 | 1 | 1.0 | -0.6 |

Table B. 1 (continued)

| Characteristic | Workshop Participants Ages 40 to 64 |  | Follow-Up Survey Respondents |  | Percentage Point Difference |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | N | \% | N | \% |  |
| Education |  |  |  |  |  |
| 8th Grade or Less | 162 | 26.2 | 25 | 25.0 | -1.2 |
| Some High School but Did Not Graduate | 85 | 13.8 | 18 | 18.0 | 4.2 |
| High School/GED/Training Program | 195 | 31.6 | 25 | 25.0 | -6.6 |
| College/Graduate School | 141 | 22.8 | 26 | 26.0 | 3.2 |
| Some College/Other/Unknown | 35 | 5.7 | 6 | 6.0 | 0.3 |
| Have Regular Health Care Provider |  |  |  |  |  |
| Yes | 524 | 84.8 | 86 | 86.0 | 1.2 |
| No | 79 | 12.8 | 13 | 13.0 | 0.2 |
| Unknown | 15 | 2.4 | 1 | 1.0 | -1.4 |

Note: $\quad$ Participants who reported more than one race or type of health insurance are reported in more than one category. Thus, the sum of these categories might be greater than 100 percent.

Table B.2. Breast Knowledge on Pre-Tests and Post-Tests Among Women Ages 40 to 64, by Demographic Characteristics and Interactions with Health Care Providers

|  | Number | Pre-Test | Post-Test |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Mean Score | Mean Score | Percentage with Increased Score | Percentage with <br> Decreased Score | Percentage with No Change in Score |
| Total | 564 | 4.0 | 4.7 | 43.4 | 5.0 | 51.6 |
| Race |  |  |  |  |  |  |
| Asian | 87 | 4.2 | 4.7 | 36.8 | 5.7 | 57.5 |
| Black/African American | 91 | 4.1 | 4.5 | 33.0 | 7.7 | 59.3 |
| White | 214 | 3.9 | 4.8 | 53.3 | 2.8 | 43.9 |
| Other | 29 | 3.8 | 4.7 | 62.1 | 6.9 | 31.0 |
| Unknown | 151 | 4.1 | 4.7 | 37.7 | 5.3 | 57.0 |
| Ethnicity |  |  |  |  |  |  |
| Hispanic/Latina | 295 | 4.0 | 4.7 | 42.7 | 5.1 | 52.2 |
| Not Hispanic/Latina | 256 | 4.1 | 4.7 | 44.1 | 5.1 | 50.8 |
| Unknown | 13 | 4.0 | 4.9 | 46.2 | 0.0 | 53.8 |
| Language of Demographic Form |  |  |  |  |  |  |
| English | 189 | 4.1 | 4.6 | 38.6 | 4.2 | 57.1 |
| Portuguese | 94 | 3.9 | 4.9 | 58.5 | 1.1 | 40.4 |
| Spanish | 197 | 3.9 | 4.7 | 43.7 | 7.1 | 49.2 |
| Vietnamese | 84 | 4.2 | 4.7 | 36.9 | 6.0 | 57.1 |
| Country of Birth |  |  |  |  |  |  |

| Unknown Insurance Type | 3 | 66.7 | 33.3 | 0.0 |
| No | 6 | 16.7 | 16.7 | 66.7 |
| Unknown | 1 | 100.0 | 0.0 | 0.0 |
| Education |  |  |  |  |
| 8th Grade or Less | 25 | 52.0 | 20.0 | 28.0 |
| Some High School but Did Not Graduate | 18 | 33.3 | 11.1 | 55.6 |
| High school/GED/Training Program | 25 | 36.0 | 28.0 | 36.0 |
| College/Graduate School | 26 | 46.2 | 19.2 | 34.6 |
| Some College/Other/Unknown | 6 | 83.3 | 0.0 | 16.7 |
| Have Regular Health Care Provider |  |  |  |  |
| Yes | 86 | 48.8 | 18.6 | 32.6 |
| No | 13 | 23.1 | 23.1 | 53.8 |
| Unknown | 1 | 0.0 | 0.0 | 100.0 |
| Most Recent Mammogram |  |  |  |  |
| 1-2 Years Ago | 53 | 47.2 | 20.8 | 32.1 |
| > 2-3 Years Ago | 14 | 50.0 | 21.4 | 28.6 |
| > 3-5 Years Ago | 6 | 66.7 | 16.7 | 16.7 |
| > 5 Years Ago | 6 | 0.0 | 33.3 | 66.7 |
| Never | 21 | 42.9 | 9.5 | 47.6 |

Note: Participants who reported more than one race or type of health insurance are reported in more than one category. Thus, the sum of these categories might be greater than 100 percent.

Table B.6. Receipt of Mammograms, Screening Decision Factors, and Breast Health Knowledge Among Follow-Up Survey Respondents (women ages 40 to 64 without a mammogram in the past year at the time of the workshop)

|  | N |  |  |  | Respondents with Knowledge Change (percentage) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Correct Answers (percentage) |  |  | Pre-Test to Post-Test |  | Post-Test to Follow-Up |  | Pre-Test to FollowUp |  |
|  |  | Pre- <br> Test | Post- <br> Test | FollowUp Test | Increase in Score | Decrease in Score | Increase in Score | Decrease in Score | Increase in Score | Decrease in Score |
| Total | 89 | 4.0 | 4.6 | 4.0 | 44.9 | 5.6 | 12.4 | 48.3 | 34.8 | 28.1 |
| Receipt of Mammogram After Workshop, $\mathrm{N}=89$ |  |  |  |  |  |  |  |  |  |  |
| Yes | 42 | 4.0 | 4.5 | 4.1 | 40.5 | 9.5 | 14.3 | 45.2 | 33.3 | 28.6 |
| No | 47 | 4.0 | 4.7 | 4.0 | 48.9 | 2.1 | 10.6 | 51.1 | 36.2 | 27.7 |
| Appointment for a mammogram, $\mathrm{N}=47$ |  |  |  |  |  |  |  |  |  |  |
| Has not scheduled mammogram | 29 | 3.9 | 4.7 | 4.0 | 48.3 | 0.0 | 10.3 | 51.7 | 41.4 | 24.1 |
| Has scheduled mammogram | 18 | 4.1 | 4.7 | 3.9 | 50.0 | 5.6 | 11.1 | 50.0 | 27.8 | 33.3 |

Note: $\quad 11$ participants were excluded because they did not answer all questions on the pre-test, post-test, and follow-up test.

Table B.7. Reasons for Getting or Not Getting a Screening Six Months After the Workshop Among Breast Health Follow-Up Survey Respondents (women ages 40 to 64 without a mammogram in the past year)

|  | Total N | \% of Total |
| :--- | :---: | :---: |
| Receipt of Mammogram After Workshop | 100 | 45.0 |
| Workshop Attendance Influenced the Decision to Get a Mammogram | 45 | 77.8 |
| Workshop Attendance Influenced the Decision to Schedule a Mammogram | 19 | 79.0 |
| Reason for Not Having Mammogram After Workshop | 36 | 58.3 |
| I didn't think I needed one | 36 | 16.7 |
| My health care provider never brought the topic up/other | 36 | 13.9 |
| Too busy/other conflicts | 36 | 11.1 |
| I didn't have insurance or couldn't afford to get a mammogram | 36 | 5.6 |
| I thought a mammogram would hurt or I do not like getting mammograms | 36 | 5.6 |
| I am too young to have a mammogram |  |  |

Table B.8. Breast Health Knowledge Change During Workshops Among Women Ages 40 to 64: Stepwise Regression Results ( $\mathrm{N}=618$ )

|  | Coefficient | $p$-Value |
| :---: | :---: | :---: |
| Pre-Test Score | -0.84 | $<0.0001$ |
| Site (reference value = YWCA of Southeastern Massachusetts) |  |  |
| CBO1 | -1.07 | $<0.001$ |
| CBO2 | -0.50 | < 0.001 |
| CBO3 | -0.53 | < 0.001 |
| CBO4 | -0.66 | < 0.001 |
| CBO5 | -0.28 | < 0.001 |
| CBO6 | -0.41 | $<0.001$ |
| CBO7 | 0.36 | 0.030 |
| CBO8 | -0.55 | $<0.001$ |
| Race ${ }^{\text {a }}$ |  |  |
| Black/African American | -0.19 | 0.007 |
| Ethnicity (reference value = Hispanic/Latina) |  |  |
| Unknown | 0.26 | 0.100 |
| Language of Demographic Form (reference value = Spanish) |  |  |
| Vietnamese | -0.50 | $<0.001$ |
| Insurance Status (reference value = yes) |  |  |
| Unknown | -0.55 | 0.004 |
| Education (reference value $=$ high school/GED/training program) |  |  |
| Some College/Other/Unknown | -0.19 | 0.085 |
| Country of Birth (reference value = born in other country) |  |  |
| Born in U.S. Territories | -0.15 | 0.048 |
| Unknown | -0.42 | 0.001 |

Note: $\quad$ R-squared $=0.76$. Significance value for entry and removal from the model $=0.15$. Factors not chosen during the stepwise regression included insurance status and type, screening history, and whether a woman had a regular health care provider.
${ }^{\text {a }}$ There is no reference value for variables that were not mutually exclusive.

Table P.1. Characteristics of Black Male Workshop Participants Ages 40 to 64 and Follow-Up Survey Respondents (men ages 40 and older)

| Characteristic | Black Men Ages 40 to 64 |  | Follow-Up Survey Respondents |  | Percentage Point Difference |
| :---: | :---: | :---: | :---: | :---: | :---: |

Table P.6. Discussion with Health Care Providers, Prostate Cancer Screenings, Screening Decision Factors, and Prostate Health Knowledge Among Follow-Up Survey Respondents (men ages 40 and older)

|  | N |  |  |  | Respondents with Knowledge Change (Percentage) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Correct Answers <br> (Percentage) |  |  | Pre-Test to Post-Test |  | Post-Test to FollowUp |  | Pre-Test to FollowUp |  |
|  |  | Pre- <br> Test | Post- <br> Test | FollowUp Test | Increase in Score | Decrease in Score | Increase in Score | Decrease in Score | Increase in Score | Decrease in Score |
| Total | 102 | 3.9 | 4.3 | 4.0 | 35.3 | 14.7 | 22.5 | 43.1 | 41.2 | 27.5 |
| Received or Scheduled Prostate Cancer Screening After Workshop, N = 102 |  |  |  |  |  |  |  |  |  |  |
| Yes | 60 | 3.9 | 4.5 | 4.2 | 41.7 | 11.7 | 23.3 | 43.3 | 46.7 | 21.7 |
| No | 42 | 3.9 | 4.1 | 3.8 | 26.2 | 19.0 | 21.4 | 42.9 | 33.3 | 35.7 |
| Discussed Prostate Screening with Health Care Provider After Workshop, N = 102 |  |  |  |  |  |  |  |  |  |  |
| Yes | 57 | 4.0 | 4.4 | 4.1 | 31.6 | 15.8 | 21.1 | 38.6 | 36.8 | 28.1 |
| No | 36 | 3.7 | 4.2 | 3.8 | 36.1 | 11.1 | 25.0 | 52.8 | 47.2 | 30.6 |
| Unknown | 9 | 3.7 | 4.6 | 4.2 | 55.6 | 22.2 | 22.2 | 33.3 | 44.4 | 11.1 |

Note: $\quad 25$ participants were excluded because they did not answer all questions on the pre-and post tests and follow-up tests.

Table P.7. Reasons for Getting or Not Getting a Screening Six Months After the Workshop Among Prostate Health Follow-Up Survey Respondents (men ages 40 and older)

|  | Total N | \% of Total |
| :---: | :---: | :---: |
| Discussion with Health Care Provider |  |  |
| Discussed Prostate Screening with Health Care Provider After Workshop | 127 | 58.3 |
| Workshop Attendance Influenced the Decision to Talk to a Health Care Provider | 74 | 93.2 |
| Reason for Not Talking with Provider About Prostate Screening After Workshop |  |  |
| I felt healthy so I didn't think I needed to get screened/ talk with a provider | 53 | 35.9 |
| I had already talked to a provider or had a screening before the workshop | 53 | 22.6 |
| I didn't think it was important/I wasn't aware of the risks/rates of prostate cancer | 53 | 18.9 |
| I wasn't due for an appointment with a provider | 53 | 13.2 |
| I didn't have insurance or couldn't afford to see a provider | 53 | 11.3 |
| I didn't think screening/ testing was worthwhile/effective | 53 | 9.4 |
| I didn't feel comfortable talking with a provider | 53 | 7.6 |
| My health care provider never brought the topic up | 53 | 3.8 |
| I was too young/just turned 40 | 53 | 3.8 |
| I have an appointment scheduled soon to talk with a provider | 53 | 3.8 |
| Other | 53 | 9.4 |
| Prostate Cancer Screening After Workshop |  |  |
| Receipt of PSA Test After Workshop | 127 | 43.3 |
| Receipt of DRE Test After Workshop | 127 | 37.8 |
| Appointment for PSA | 127 | 8.3 |
| Workshop Influenced Decision to Schedule PSA | 6 | 50.0 |
| Reason for Not Having or Scheduling PSA Test After Workshop, N=66 |  |  |
| I had already talked to a provider or been screened or my provider did not think it was necessary | 18 | 27.3 |
| I wasn't due for an appointment with a provider | 17 | 25.8 |
| I felt healthy so I didn't think I needed to get screened/talk with a provider | 16 | 24.2 |
| I didn't think it was important/I wasn't aware of the risks/rates of prostate cancer | 10 | 15.2 |
| I didn't have insurance or couldn't afford to see a provider | 9 | 13.6 |
| I was too young/just turned 40 | 4 | 6.1 |
| My health care provider never brought the topic up | 4 | 6.1 |
| I didn't think screening/ testing was worthwhile/effective | 4 | 6.1 |
| I didn't feel comfortable getting screened/tested | 2 | 3.0 |
| Other | 7 | 10.6 |
