

# Dating Phone Apps Study Handout

## Phase 2

*At first, because there were stages of this...So I got Jackd originally for sexual purposes. Now I have it to try to find somebody to know better and possibly start a relationship with.*  
- (Jimmy, 24, HIV positive)

## Phase 3

*And I used them all the time. Yeah and it kind of got really bad where I was like using them. I was on them every single day; [I was] always on them chatting with people. I'm curtailing myself now but there was a point like in the summer when I was trying to hook up with someone and I would just stay on the phone for like 5, 6 hours, all day long trying to talk to people. It was really bad.*  
(Pablo, 24, HIV negative)

## Phase 4

*I don't want to say it's not appealing because otherwise I wouldn't have it on here; but it's not really something I put faith into as I used to, being younger or being exposed to it from the beginning.*  
- (Remy, 24, HIV negative)
