**Evidence- Based Teen Pregnancy Prevention Programs at a Glance**

*This table was developed by Child Trends under contract number GS-10F-0030R for the Office of Adolescent Health, U.S. Department of Health and Human Services as a technical assistance product for use with OAH grant programs.*

This table provides a brief overview of the program models on the HHS Teen Pregnancy Prevention Evidence Review website that are implementation ready and is intended to be used in conjunction with other resources when selecting a program model for implementation. For additional information, please visit [http://www.hhs.gov/ash/oah/resources-and-publications/tpp/](http://www.hhs.gov/ash/oah/resources-and-publications/tpp/).

Note: Grantees may propose to implement an evidence-based TPP program with a population or in a setting other than those identified in the program’s original evaluation; however, as a reminder, proposed adaptations must be shared with OAH and may require approval.
